

Church Community Builder

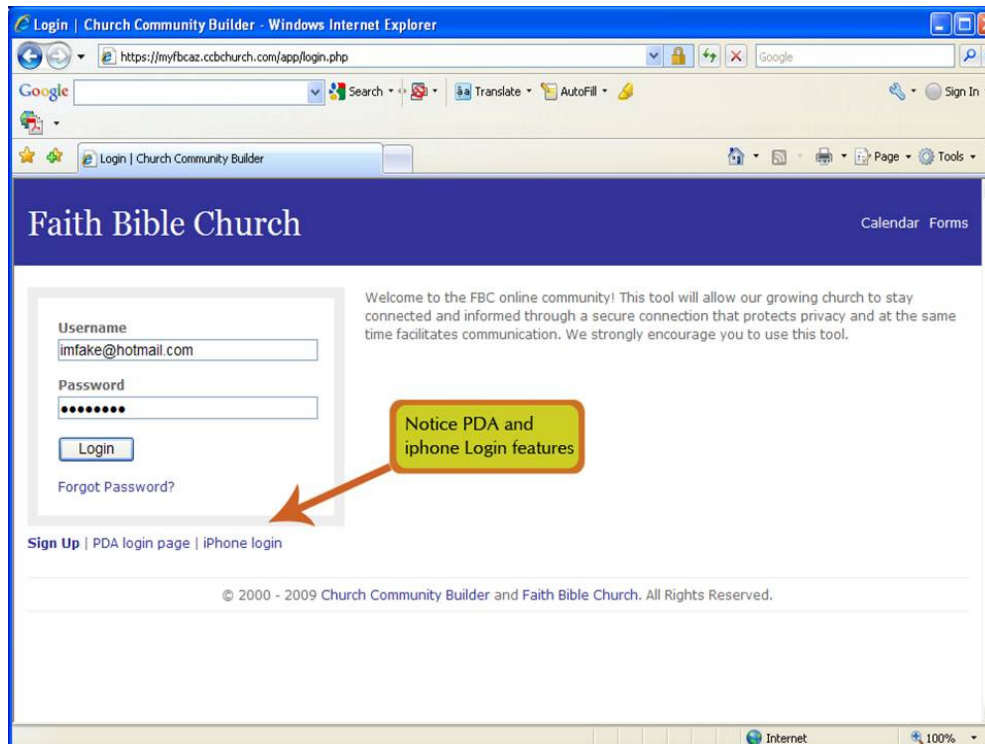

Basic user Walk Through

Let's walk through what a basic user sees.

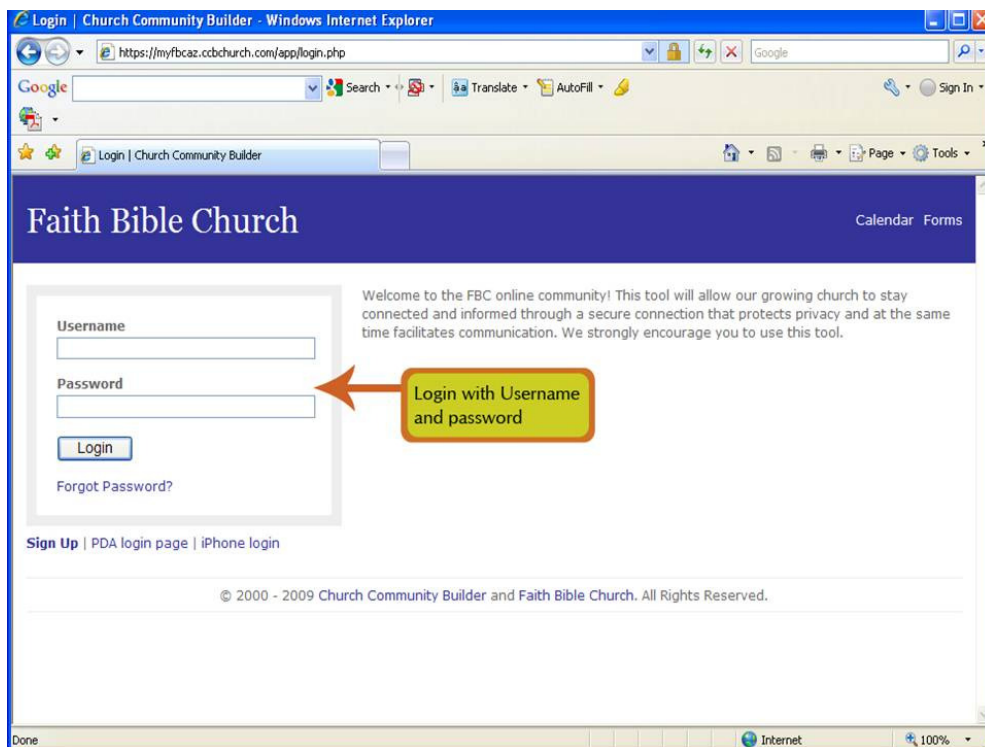

Login

- Go to the top of the homepage and click myfbcaz login (<http://www.fbcaz.org/400201.ihtml>)
- <https://myfbcaz.ccbchurch.com/app/index.php>

There are two ways to log in. One is to type out the name of the website but it is easier to go to the myfbcaz login on the top of the home page. It would be good to save the URL to your favorites

If you don't have a login yet, you can click "Sign Up" which will send a request for a login and password. You can also login via PDA or iphone.

Type in your user name and password. If you have forgotten your login, use the 'Forgot Password?' link to request that it be emailed to you.
